Premium engineered oak flooring

floors4ever.com

ABOUT US

Wood flooring is our passion.

Floors4Ever is an importer of premium engineered hardwood. From our office in Lithuania and our distribution centres in Germany, we keep the floors our partners rely on in stock — and supply them within five working days.

Our warehouses hold the collection in stock, so the floor you order is already on a pallet — not on a waiting list. In our 3 warehouses we constantly hold more than 100,000 m² of high-quality flooring in stock.
